

Normal 0 21 In the sea of self proclaimed artist who host questionable courses without handing out any diplomas, finally in Zagreb there was an authentic course of Kinesiotaping in the organization of Kinesio Hrvatska www.kinesiotaping.com/vincent-debono.php under the supervision of dr. Vincent DeBon a certified instructor from Chicago, a man with great knowledge and experience who is ready to share his knowledge with the people who attended <http://www.kinesiotaping.com/vincent-debono.php>. There were 30 people attending on KT1 and KT2 and on the last two days on KT3 also 30 (doctor, physiotherapists, dipl kinesyologs and chiropracticians). I came for the all three modules KT1, KT2 and KT3 and was ecstatic by something new. If you want to see how it looked like. Take a look at these photos.
